PROFESSIONAL SUMMARY

Results-driven Process Analyst and Computer Science graduate with experience in production monitoring, logistics coordination, and workflow optimization in a fast-paced manufacturing environment. Backed by internships in telecommunications and instrumentation, with growing expertise in web development using HTML, CSS, JavaScript, and Python. Adept at using data to drive decisions, improve operational efficiency, and deliver measurable results.

SKILLS

Web Development

- HTML | CSS | JavaScript | Python (in progress)

Operations & Engineering

- Process Analysis & Production Monitoring
- Logistics & Inventory Coordination
- Fiber Optic Handling & Basic Splicing
- Instrumentation & Control Basics

Tools & Software

- Microsoft Excel (Data Analysis, Pivot Tables, Reporting) | Word | PowerPoint

Soft Skills

- Safety Procedures in Plant Operations | Technical Troubleshooting | Documentation & Reporting | Team Collaboration & Communication

EXPERIENCE

Web Application Development Trainee | **Aptech Computer Education** | *January 2026 – Present*

- Undertaking intensive training in full-stack web application development.
- Building projects using HTML, CSS, JavaScript and Python.
- Developing practical skills in modern web development frameworks and best practices.
- Currently working towards Smart Professional Web Application Development with Python certification.

Process Analyst Intern | **Chi Limited (Chivita Hollandia International)** | *July 2025 – January 2026*

- Analysed daily production data across 40+ production lines, identifying performance gaps and improvement areas.
- Monitored key production metrics to ensure efficiency, quality standards, and target attainment.
- Collaborated with cross-functional teams to resolve process bottlenecks and streamline operations.
- Prepared daily and weekly performance reports for management decision-making.
- Contributed to workflow optimization initiatives across production lines.

Production Logistics Officer Intern | **Chi Limited (Chivita Hollandia International)** | *August 2024 – March 2025*

- Monitored and tracked raw materials to ensure consistent availability for continuous production.
- Maintained accurate inventory records and documentation across multiple product lines.
- Coordinated with production teams to ensure smooth, uninterrupted operations.
- Supported efficient material flow and reduced delays in production processes.

Field Technician Intern | **Waasek Technical Service** | *March 2025 – June 2025*

- Assisted in installation and testing of fiber optic cables and wireless systems for telecom deployments.
- Supported trenching, cable laying, and basic splicing operations on active projects.
- Participated in troubleshooting and maintenance of telecom infrastructure.
- Gained practical knowledge of network deployment processes and safety procedures.

Instrumentation & Control Intern (SIWES) | **Olorunsogo Power Plant** | *August 2023 – October 2023*

- Operated and monitored field equipment using computer-based control systems at a major power generation facility.
- Assisted in installation and maintenance of CCTV and monitoring systems.
- Worked with control room engineers to troubleshoot system faults and minimize downtime.
- Learned plant safety protocols and equipment calibration procedures.

PROJECTS

Portfolio Website | *HTML, CSS, JavaScript*

Designed and developed a personal portfolio to showcase projects and technical skills with a clean, structured layout.

Construction Company Website | *HTML, CSS, JavaScript*

Developed a responsive website for a construction business, implementing structured layouts, service sections, and modern UI design.

Responsive Food Delivery Website | *HTML, CSS, JavaScript*

Built a modern food delivery landing page with multiple sections including hero, features, pricing, and testimonials.

Live Link: <https://sak-ice.github.io/Pizza-hut>

Ibrahim Omnifood | *HTML, CSS, JavaScript*

Developed a fully responsive food subscription website with modern design, smooth navigation, and structured content sections.

Live Link: <https://sak-ice.github.io/Ibrahim-Omnifood>

EDUCATION

B.Sc. Computer Science

Crescent University Abeokuta | 2020 – 2024

Web Application Development

Aptech Computer Education | January 2026 – August 2026 (In Progress)

Web Design

CERTIFICATIONS

- Smart Professional Web Application Development with Python – Aptech (In Progress)
- Certificate of Completion in Web Design – New Horizons (November 2022)
